Its graduates are sought after by top national and global organizations.

5C'S CULTURE

S.I.S.F.U believes in five anchors that are necessary to succeed in the 21st century:

Character

Character is the basic anchor in life. Great men and women achievers are known for striking qualities of courage and conviction. Character is the deep reservoir from which words are spoken, behaviors acted out and wisdom manifested. Character encompasses values of time and money, justice, fairness, conviction, firmness, global sensitivity, local action, intrapersonal or interpersonal sensitivity, compassion, courage and integrity.

Competence

Competence is the knowledge and skill required to do a task. Tasks have evolved into complex components necessitating a very broad base of information but a focused development of skills. Competence includes analytical skills, problem solving, decision making, creativity, innovation, technical knowledge, verbal fluency, expertise in a discipline, global

awareness and knowledge, a strong capacity to manage change and a positive attitude for staying updated in information and a lifetime of learning.

Commitment to Achieve

Commitment to achieve is transforming dreams into reality, vision into tasks, aspirations into actual output. It involves a consistent commitment to get things done and have goals accomplished. What has transformed learners into great leaders, managers into effective managers, athletes into exemplary athletes, teachers into unforgettable teachers, the list goes on ... is a burning PASSION to get things done. These people think of, talk of, dream of the reality. For them, this quality is spelled out as an achievement and results orientation, excellence in work, timely delivery of output, focus and perseverance.

Creativity

Creativity is the more efficient way of doing things, the new solution to old problems, the insatiable quest to improve processes and the improvement of life. The mobility we are experiencing now, the technology we avail of, the excellent facility in communication and efficiency in systems, the quality of entertainment we enjoy, our ever-increasing stretching of life spans – these are all products of the genius of man. Creativity holds the key to our quality of life in the future. The genius in each child has to be awakened, nurtured, and ultimately utilized by mankind for its good.

Collaboration

Collaboration is possessing excellent interpersonal skills, persuasive communication competencies, and well-developed collaborative attitude and skills. Great leaders are known for having these qualities. Although achievement can be an individual effort, there is much more that can be attained where there is synergy. The power to effect changes, to alter paradigms and to make a difference stems from the strength derived from a mass base. To galvanize a group into action or to inspire members to work towards something, group facilitation skills and a collaborative spirit are most essential.

Each member's talent, skill or competency is tapped; conflicts are effectively handled such that it benefits the group. Personality and cultural differences and varied perspectives are treated in a complementary way by using the diversity to enrich the quality of the decision or action taken. Most of all, a person with collaborative skills lives in harmony with himself and with others

HISTORY

It was Dr. Genevieve Ledesma-Tan who founded Southville International School and Colleges (SISC) in 1990, which grew rapidly into a full international school. In 1997, Roger and Helen Bartholomew teamed up with the founder of SISC to start SISFU, the first transnational university in the country. In May 1998, the opening of SISFU was graced by prestigious dignitaries and a large contingent from the press.

The need for world-class education is rapidly growing as trade barriers come down and countries become more and more interdependent on each other for a variety of products and services. With today's communication capabilities, knowledge and expertise can no longer be learned in isolation.

SISFU is characterized by a focused, relevant, outcomes-based curriculum, professional and industry-recognized qualification, cutting-edge technology, integrated learning strategies and an international faculty. In addition, the learning environment reflects the interaction between custom designed facilities and a motivated student body. Students also have the option of taking the final year of their studies abroad. SISFU brings high quality education to the Philippines to enable its students to be globally competitive

EQUAL OPPORTUNITY POLICY

SISFU seeks to ensure that all students are treated fairly and are afforded equal opportunity to develop their potential for learning and will promote an environment where staff and students recognize and respect the rights of others. SISFU is committed to providing equality of opportunity and freedom from unlawful discrimination on the grounds of race, color, nationality, ethnic origin, gender, marital or civil partnership status, disability, including mental health difficulties, sexual orientation, religion or belief, or age.

While you are provided protection from discrimination on the grounds listed above, you have the obligation to ensure that your behavior and actions treat other students, faculty and staff accordingly as well. The school takes equality of opportunity seriously and any violation of its policy and the equality laws of the Philippines could result in disciplinary action, including dismissal from the University.

GETTING AROUND SOUTHVILLE

ACADEMIC SUPPORT

Just as our intellectual culture of critical thinking - a disciplined process of actively questioning assumptions - defines SISFU, so too does our culture of service shape student life. Our dedication to constant searching, challenging, and examining carries over into a community that pushes you, students, to be the best that you can be.

At SISFU, you are part of a select group of people who share a passion and curiosity for exploration—going beyond your comfort zone and emerging stronger, more self-aware, self-assured, and self-reliant. In the process, your fellow students, staff, and faculty will challenge you, push you, support you, cheer you on, and gladly lend you a helping hand.

We have your back. If you have a question, we listen. If you have a problem, our doors are open – come in, no appointments required. If you need help with your subjects, we provide you with mentors and out-of-class consultations. We are committed to your academic success. You work hard, have fun, and in the end, you achieve:

- The confidence to lead and inspire
- That awesome sense of accomplishment and pride
- Beautiful friendships and lasting memories
- Business relationships for life

At SISFU, you find a community that is challenging, exhilarating, fun, and thoroughly transformative—something you will recognize from the moment you enter its portal.

You are provided with full support to assist you in your academic performance and achievement through the following programmes:

Consultation – You are provided after-school-hours consultation with subject teachers on subject assignments, topic clarifications, and other Q&A matters regarding the subject.

Consultation hours are held as a result of the following:

- Your name is included in a “List of Students at Risk” submitted by the teacher during the 4th week of the class. These are students whose academic performance is below acceptable levels.
- You may request for consultation or may see a teacher for consultation.
- Results of attendance monitoring and achievement tracking conducted by the Academics Department with names of students who need help.

Study Skills support - This consists of help to you with issues such as assignment planning and structuring, reflective writing, referencing, revision strategies and other study techniques. A team of tutors is designated to provide assistance to you. You can either make an appointment for the service or just see a tutor who might be available during their consultation hours.

Student Counselling – This process enables you to explore and make sense of issues that may be distressing or disrupting in your life. Some of the issues that the counselor might discuss with you include managing depression, panic attacks, time management, low self-esteem and relationships. You may be referred by the counselor to a licensed guidance counselor or psychiatrist, as needed. Exploration of problems can lead to greater awareness, increased understanding, and change. The need for counseling can be initiated by you or any school representative. You are free to see the Career Counselor anytime the counselor is available. However, making an appointment is helpful and is more efficient.

Financial Assistance – The school provides financial assistance to you if you would need immediate or temporary help in settling your financial obligations with the school to ensure that your academic performance is not disrupted by financial problems.

Orientation - SISFU holds orientation and training programmes at the start of the school year and a series of consultation meetings with you to keep you abreast of the information about your programme of study and policies. In these programmes, SISFU clearly sets out the school's expectations of the current students and what you can expect of the school. The Orientation programme will include topics such as: Time Management, Information on the UK and Australian Systems of Teaching and Learning, and Critical Thinking. SISFU, through its career counseling programme and career presentations, makes available to you important information to help you select your courses and help you understand the academic environment in which you will be studying and the support that will be made available to you.

Training in English Language - The English Language Center was created to provide assistance to international students and sometimes to Filipino students who have not developed the required level of proficiency in the use of English Language as mandated by the admission standards of our international partners. The Center conducts testing in English Language proficiency and classes in English Language are offered to potential students and students who need to improve their oral and written communication in English.

Medical Services- Medical Services are provided by an in-house nurse. There is also a medical clinic located in the Southville campus with nurses and a physician on-call which serves the schools under the Southville Global Education Network. In addition, there is a medical center (Las Pinas Doctors Hospital) located across the school and within walking distance.

STUDENT ORGANIZATIONS

SISFU encourages students to pursue sports activities and other interests and to form groups or clubs to carry out these activities. As far as possible, the SISFU will provide the facilities for the clubs that are formed, and where needed, will provide advisers and coaches.

Student organizations may be created and the Student Affairs Coordinator will determine the relevance of the organization to the academic needs of the students. You have to state the objective of the proposed organization and demonstrate that it is not a duplication of an existing student organization in SISFU. The proposed organization will be presented to the President of SISFU for approval.

All organizations must have clear objectives. Every year, a set of officers must be elected, and the elected officers will conduct a planning workshop to map out projects for the coming academic year.

The organisational structure of student organizations may change depending on the strategic needs of the members, but such changes must be approved by the Student Affairs Coordinator.
